PREFACE

THE Catalog of Copyright Entries for the year 1947 is issued in a new series and an enlarged format, a change designed to increase and extend the usefulness of the compilation. Inquiries, suggestions and comments on all details to the Catalog are solicited, and should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

CONTENTS. This part of the Catalog of Copyright Entries contains alphabetical lists of works registered in the Copyright Office in classes G, H, I, J and K from January 1, 1947 through June 30, 1947. Renewal registrations in these classes made in this period are listed in Part 14A of the Catalog.

ARRANGEMENT. Copyright registrations in each class are listed in separate alphabets. Entry is under artist (or "author" as used in the Copyright law) except in Class J, Photographs, in which entry is under the copyright proprietor. Cross references from joint proprietors are included in the Class J alphabet, and from joint authors or artists in the other alphabets.

ENTRY. The entry includes, in addition to the author, and/or copyright proprietor, the title, and in most entries a brief physical description of the material being cataloged. The omission of the physical description for those entries registered in Class J indicates that the deposits are photographic prints.

COPYRIGHT DATA. The statement giving the copyright facts relating to each item is preceded by the copyright symbol ©. The statement consists of the name and address of the claimant, if it differs from the name of the author, the date of publication (for published works) or the date of receipt in the Copyright office of one copy (for unpublished works), and the registration number. When the address follows the name of the author in the heading, it indicates that the author and copyright claimant are the same; in these instances the name is not repeated in the copyright statement. Works in Classes G, I and J can be identified as unpublished by the letter "U" following the class letters. In Classes H and K, the letter "F" following the class letters indicates that the material was published outside the United States. The class symbol B-5 indicates that the work registered is a contribution to a periodical.

DEPOSIT OF COPIES. In the case of every copyright entry listed in the catalog, the deposit of copies (or copy) as required by Title 17, U.S.C., secs. 12 and 13 has been made.

AUTHORITY. The Catalog of Copyright Entries is published pursuant to the authority given in the provisions of Title 17, U.S.C., secs. 210 and 211. Section 210 provides that the Catalog "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

ORGANIZATION OF THE CATALOG. This issue of the Catalog is part of Volume I of the new Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in Title 17, U.S.C., sec. 5. Letters are used to designate subdivisions. The following is the plan of publication for 1947:

- Part 1A - Books and Selected Pamphlets.
- Part 1B - Pamphlets, Serials and Contributions to Periodicals.
- Part 2 - Periodicals.

PREFACE

THE Catalog of Copyright Entries for the year 1947 is issued in a new series and an enlarged format, a change designed to increase and extend the usefulness of the compilation. Inquiries, suggestions and comments on all details of the Catalog are solicited, and should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

CONTENTS. This part of the Catalog of Copyright Entries contains alphabetical lists of works registered in the Copyright Office in classes G, H, I, J and K from July 1, 1947 through December 31, 1947. Renewal registrations in these classes made in this period are listed in Part 14A of the Catalog.

ARRANGEMENT. Copyright registrations in each class are listed in separate alphabets. Entry is under artist (or "author" as used in the Copyright law) except in Class J, Photographs, in which entry is under the copyright proprietor. Cross references from joint proprietors are included in the Class J alphabet, and from joint authors or artists in the other alphabets.

ENTRY. The entry includes, in addition to the author, and/or copyright proprietor, the title, and in most entries a brief physical description of the material being cataloged. The omission of the physical description for those entries registered in Class J indicates that the deposits are photographic prints.

COPYRIGHT DATA. The statement giving the copyright facts relating to each item is preceded by the copyright symbol ©. The statement consists of the name and address of the claimant, if it differs from the name of the author, the date of publication (for published works) or the date of receipt in the Copyright Office of one copy (for unpublished works), and the registration number. When the address follows the name of the author and the copyright symbol © in the heading, it indicates that the author and copyright claimant are the same; in these instances the

name is not repeated in the copyright statement. In the Class J list, in which entry in every case is under the name of the copyright claimant, the copyright symbol © is omitted. Works in Classes G, I and J can be identified as published or unpublished by the letter "P" or "U" following the class letters. In Classes H and K, the letter "F" following the class letters indicates that the material was published outside the United States. The class symbol B-5 indicates that the work registered is a contribution to a periodical.

DEPOSIT OF COPIES. In the case of every copyright entry listed in the catalog, the deposit of copies (or copy) as required by Title 17, U.S.C., secs. 12 and 13 has been made.

AUTHORITY. The Catalog of Copyright Entries is published pursuant to the authority given in the provisions of Title 17, U.S.C., secs. 210 and 211. Section 210 provides that the Catalog "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

ORGANIZATION OF THE CATALOG. This issue of the Catalog is part of Volume I of the new Third Series. The parts are numbered according to the alphabetical sequence of classes as listed in Title 17, U.S.C., sec. 5. Letters are used to designate subdivisions. The following is the plan of publication for 1947:

- Part 1A - Books and Selected Pamphlets.
- Part 1B - Pamphlets, Serials and Contributions to Periodicals.
- Part 2 - Periodicals.
- Parts 3 & 4 - Dramas and Works Prepared for Oral Delivery.
- Part 5A - Published Music.
- Part 5B - Unpublished Music.

- Part 14B - Renewal Registrations - Music.

SUBSCRIPTION. The annual subscription price for the complete yearly Catalog of Copyright Entries is \$20.00, payable in advance to the Superintendent of Documents, Government Printing Office, Washington 25, D. C., to whom inquiries and orders concerning the complete Catalog or any of its parts should be addressed.
